

JERNBRO®

INDUSTRIAL SERVICES  
FOR BETTER FLOW

A photograph of a red car body on an assembly line. Two large, white, articulated robotic arms are positioned above the car, one on the left and one on the right. The car is mounted on a metal frame. The background is a grey, industrial wall. A purple semi-transparent banner is overlaid on the center of the image, containing white text.

Every day, year round, we help industry **operate more safely and more efficiently**. We are where our customers are. With our in-depth competence, we can develop both your maintenance and your production plant.

**Our knowledge creates local growth.**

# GET MORE FOR LESS

Our range of services is wide. But it is united by one thing: our goal that you get more for less money. In-depth competence, understanding of industrial conditions and closeness to our customers allow us to promise this.

MORE SAFETY

MORE EFFICIENCY

MORE AVAILABILITY

IMPROVED PRODUCTIVITY  
AND REDUCED TOTAL COSTS

## DEVELOP YOUR MAINTENANCE OR YOUR PRODUCTION PLANT

Our selection of services can help you develop and streamline your maintenance. Everything from improving your maintenance processes to actually carrying out the maintenance required for your plant to achieve top performance. Our expertise combined with the Jernbro Maintenance Way tool equip us to map and identify strong and weak points in maintenance operations.

We also have engineers and specialists who can develop your production plant. From minor rebuilds to complete machines and production lines. We help you all the way from idea to finished plant.

# SKILFUL RESOURCES – CLOSE TO YOU

At Jernbro you get access to many skilled resources. We have 300 mechanics, 120 electricians, 150 engineers and a further 100 co-workers who serve industry. And all have a great interest in technology and improvements. Our goal is to offer our competence close to our customers, which is why our specialists are spread over the whole country. Together we help you develop both your maintenance and your production plant. Safety is our highest priority in everything we do and develop.

## ACCESS TO LEADING-EDGE COMPETENCE

We give you access to leading-edge competence in many areas. For example, we have specialists in maintenance development and service of components. Another area where we have in-depth knowledge is developing machines for assembly and testing in the automotive industry.

# WITH OUR ROOTS IN SWEDISH INDUSTRY

Today we help several of the country's most successful industrial enterprises streamline their production. Long relations have resulted in extensive knowledge in **the manufacturing industry, chemical industry, steel industry, food industry, pharmaceutical industry, pulp and paper industry, and power and heating**. Our breadth means we can provide you as a customer with valuable knowledge from other industries.

# BETTER FLOW IN INDUSTRY IS A LOCAL QUESTION

We are where our customers are. Today we are present in **20 locations round Sweden**. Closeness gives you several advantages. We can quickly provide the right resources at the right time. You have all expertise on site locally. Closeness also means that we get to know each other. This enables us to understand your processes and challenges. And keep your production flowing.

## WE CREATE LOCAL GROWTH

Our goal is local growth and development. This is why we invest locally. Many of us live locally. Our children go to school in the neighbourhood. We care about its survival – for the next generation. We strive to develop business relations with local companies. In this way, we secure the competence for more efficient and safer production in your local area. It also creates new job opportunities.

## OUR MANY CUSTOMERS

From small and mid-sized companies to large international groups. We have also followed our customers out in the world and helped them with both assignments and machine deliveries.
